EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Wietrzny, Reg.#44402 on 12/5/05.

The application has been amended as follows:

In claim 7:

Line 3, "the winder" has been changed to --the winder insert--.

In claim 13:

Line 3, "the winder" has been changed to --the winder insert--;

Line 8, "sprockets sized" has been changed to --concave sprockets--.

The following is an examiner's statement of reasons for allowance: The claims are patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth in claim 13, including all the structural elements recited in the claim, and the winder insert having a peripheral section defined by a plurality of concave sprockets 38 to engage mating surfaces at the inner periphery surfaces. The prior art '613 shows internal hub member 30, but fails to show a plurality of concave sprockets.

Art Unit: 3654

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
